Handgards, Inc.
901 Hawkins Blvd.
El Paso, TX, United States 79915

The International Biodegradable Products Institute, Inc. ("BPI") has granted to Worldchamp (HuiZhou) Plastics Products Company Limited a License Agreement granting them the non-exclusive right to advertise, promote, distribute, and sell certain Certified Products in association with the BPI Certification Mark in the Territory of United States, Canada, and Brazil.

Handgards, Inc., located at 901 Hawkins Blvd., El Paso, TX, United States 79915, has been granted a sublicense under this License Agreement to use the BPI Certification Mark on the sale of such Certified Products purchased from the Licensee (the "Certified Products"), subject to the terms of the current License Agreement (a copy of which is available upon request). These Certified Products purchased from the Licensee and their packaging must display the BPI Certification Mark.

Prior to beginning any new production, marketing, or distribution of any of the Certified Products purchased from the Licensee, Sublicensee and/or the Licensee shall submit to BPI a representative sample of proposed artwork, graphic material, sales material, and product blueprints depicting the BPI Certification Mark and benefits claimed, including, but not limited to, claims relating to such certification, and obtain BPI's advance written approval that such materials are appropriate and may be used by Sublicensee.

Sublicensee and the Licensee also agree to submit to BPI a current list of all SKUs (Stock Keeping Units), brand names, product titles, trademarks, and other unique identifiers such as item numbers or part numbers associated with the Certified Products to be sold by Sublicensee. Attached is a list of Sublicensee's Certified Products that have been approved. This list may be amended in writing from time to time as agreed to by Sublicensee, the Licensee, and BPI.

Sublicensee also agrees that BPI and/or the Licensee may periodically review Sublicensee's use of the BPI Certification Mark for compliance with the License Agreement.

Sublicensee also agrees to use the BPI Certification Mark only in conjunction with Certified Products purchased from the Licensee and shall not use them on any other products that have not been certified with BPI.

Upon termination or expiration of the License Agreement, or the specific certificate upon which the sublicense is based, this sublicense shall concurrently terminate or expire. When this sublicense is terminated or expires, marketing claims for BPI Certification must be removed, and new purchases may no longer show the BPI Certification Mark. Existing inventory must be sold or relabeled within 6 months.

RE: Planetgards gloves with printing

Dear Handgards, Inc.:

This is to confirm that Planetgards gloves with printing are produced by BPI-approved manufacturers from BPI-certified materials. The products listed in Table 1 of this agreement are authorized to carry the BPI Certification Mark (shown on this page) because they meet all of the requirements of ASTM Standard(s) D6400 and the BPI Commercial Compostability Certification Scheme for breaking down safely in a professionally managed composting facility without compromising the quality of the finished compost. Only products listed on Table 1 are covered by the BPI Certification.

Should anyone have questions, including about specific SKUs or item numbers, they can contact BPI directly by phone or email.

Sincerely,

Margaret Eldridge
Certification Director
